Index to Volume 16

This subject index includes names of individuals, libraries, and locations mentioned where significant to the authors' discussions. Alphabetization is letter by letter, with acronyms listed before all other entries. Terminology and form of entry are based on the *National Union Catalog*, authors' usage, Library of Congress subject headings, and the previously published index to volumes 1-9 of the *Journal of Library History*, with emphasis on ease of access.

A portion of this index was prepared as a project for the Fall 1980 Indexing and Abstracting class of the Graduate School of Library and Information Science, University of Texas at Austin, and was published as a separate monograph, *Libraries & Culture, Proceedings of Library History Seminar VI*, 19-22 March 1980. The remainder of the index for this volume was prepared by Linda Fetters (Wedel).
